### SUMMARY

having three or more years of IT experience and one or more years of full stack development experience; being passionate about writing codes; being adept at coming up with difficult solutions; being able to produce responsive designs; and having the drive, tenacity, and integrity to succeed. Ability to work well with team members and develop algorithms, as well as to interact and communicate effectively. Quickly pick up new concepts and technologies to develop original and creative solutions to issues. A constant learner of new technologies, tools, and libraries. HTML, CSS, JS, TypeScript (Learning), React, Python, and Django are areas in which I'm particularly interested in Full Stack/Web Development, Frontend Development, and Backend Development. I'm a lifelong learner who is eager to get better.
